Lead Editor: Jonathan Hassell

Technical Reviewer: Jason Bock

Editorial Board: Steve Anglin, Ewan Buckingham, Gary Cornell, Jonathan Gennick, Jason Gilmore,

Jonathan Hassell, Chris Mills, Matthew Moodie, Jeffrey Pepper, Ben Renow-Clarke,

Dominic Shakeshaft, Matt Wade, Tom Welsh

Project Manager: Beth Christmas

Copy Edit Manager: Nicole Flores

Copy Editor: Marilyn Smith

Assistant Production Director: Kari Brooks-Copony

Production Editor: Katie Stence

Compositor: Susan Glinert

Proofreader: Linda Seifert

Indexer: Brenda Miller

Artist: April Milne

Cover Designer: Kurt Krames

Manufacturing Director: Tom Debolski

# Contents

About the Author .....	.xi
About the Technical Reviewer .....	.xiii
Acknowledgments .....	.xv
Introduction .....	.xvii

<b>CHAPTER 1</b>	<b>Getting Started with Microsoft OCS 2007</b>	
	<b>Speech Server</b> .....	1
	OCS 2007 Speech Server Overview .....	1
	New Features of OCS 2007 Speech Server .....	1
	How Speech Server Works .....	3
	Speech Server Installation .....	5
	Installation Requirements .....	6
	Installing Speech Server Components .....	7
	Configuring Speech Server .....	8
	Setting Up Deployment Groups .....	9
	Setting Up SIP Peers .....	10
	Installing Applications in a Production Environment .....	13
	Adding a New Application .....	13
	Setting Call Answering Precedence .....	14
	Setting Up Outbound Calling for an Application .....	15
	Conclusion .....	17
<b>CHAPTER 2</b>	<b>Building Grammar</b> .....	19
	Using the Conversational Grammar Builder .....	19
	Building Keyword Grammar .....	20
	Building Conversational Grammar .....	27
	Supporting Multiple Languages .....	30
	Building DTMF Grammar .....	31
	Using the Lexicon Editor .....	31

Using the Grammar Editor .....	33
Building Rule-Based Grammar .....	33
Editing Script Elements with the Semantic Script Builder .....	38
Using Mixed-Initiative Dialog for Multiple Responses. ....	41
Using the Pronunciation Editor .....	43
Testing Your Grammar .....	44
Compiling Grammar .....	45
Using the Grammar Editor and the Conversational Grammar Builder Together .....	46
Writing Your Own GRXML .....	46
Creating Dynamic Grammar .....	49
Using a Control's Data Source Property .....	49
Using a Method or Class to Create a Grammar .....	50
Accessing Recognition Results .....	52
Conclusion .....	53

<b>CHAPTER 3 Building Prompts .....</b>	<b>55</b>
VUI Design Guidelines .....	55
An Initiative Standard for VUI Design .....	55
Menu Design .....	57
Navigation Design .....	58
Confirmation Prompts .....	59
Error Handling .....	60
VUI Design Patterns .....	61
System Initiative .....	61
User Initiative .....	62
Mixed Initiative .....	63
Working with Prerecorded Prompts .....	64
Creating a Prompt Project .....	64
Creating and Recording Transcriptions .....	67
Working with Extractions .....	68
Tuning Prompt Alignments .....	70
Modifying Prompt Project Settings .....	71
Using PEML .....	72
Working with TTS Prompts .....	74
Changing the Default Voice .....	74
Using SSML to Modify the TTS Voice .....	75
Dynamically Generating Prompts in Web Applications .....	78
Conclusion .....	80

<b>CHAPTER 4</b>	<b>Creating SALT Applications</b>	<b>81</b>
	Creating a Speech Application Project in Visual Studio	81
	Configuring a Simple Speech Application	83
	Setting Control Defaults	84
	Activating Controls	87
	Configuring Prompts	88
	Configuring the SemanticMap Control to Store Responses	91
	Assigning Grammar and Semantic Items	93
	Configuring the Command Control	96
	Using Other Speech Controls	98
	Prompt and Recognition Controls	98
	Data-Bound Controls	99
	Validators	103
	Call Controls	105
	Using the RunSpeech and SpeechCommon Objects	107
	The RunSpeech Object	107
	The SpeechCommon Object	108
	Writing Your Own SALT	108
	The Prompt Element	108
	The Listen Element	115
	The Record Element	121
	The DTMF Element	124
	Conclusion	127
 <b>CHAPTER 5</b>	 <b>Creating VoiceXML Applications</b>	 <b>129</b>
	Understanding VoiceXML Scopes and Interaction	130
	VoiceXML Scopes	130
	VoiceXML Interaction Control	130
	Creating a VoiceXML Project in Visual Studio	131
	Specifying Prompts and Grammar	132
	Adding Prompts	132
	Specifying Grammar	135
	Using Forms	136
	Adding Input Items	136
	Adding Control Items	141
	Using Menus	143
	Inheriting from a Root Document	143

Scripting .....	144
Using Variables .....	144
Adding Conditions.....	146
Transitioning .....	146
Submitting Data to a Web Server .....	147
Error Handling and Logging.....	148
Putting It All Together .....	150
Conclusion .....	154

## ■ CHAPTER 6    **Creating Voice Response Workflow Applications** ..... 155

Working with the Dialog Workflow Designer .....	155
Creating a Voice Response Workflow Application Project .....	158
Controlling Call Connections .....	160
Configuring Outbound Calls.....	161
Making Blind Transfers .....	161
Playing Prompts and Getting User Input .....	162
Adding a Statement Activity .....	164
Adding a QuestionAnswer Activity .....	165
Adding a GetAndConfirm Activity .....	173
Adding a Menu Activity .....	174
Adding a NavigableList Activity .....	175
Adding a FormFillingDialog .....	178
Recording User Input .....	183
Going to a Target Activity.....	186
Using a Prompt Database .....	187
Specifying Commands .....	187
Adding Help and Repeat Commands .....	188
Adding Custom Commands.....	189
Handling Errors and Events .....	190
Handling Speech Events .....	190
Creating Fault Handlers .....	191
Adding Interpreters .....	192
Creating Custom Activities .....	193
Adding a Sequential Workflow Activity.....	194
Adding a Voice Response Sequence Activity.....	194
Adding a Voice Response Composite Activity .....	197

Creating Outbound Calling Applications .....	201
Placing Calls in a Queue .....	201
Designing the Outbound Call Activities .....	202
Conclusion .....	205

## ■ CHAPTER 7    **Creating Unified Communications and Messaging Applications** .....

Using Exchange 2007 Auto Attendants .....	207
Adding an Auto Attendant .....	208
Configuring an Auto Attendant .....	210
Building a UM Speech Application .....	215
Accessing an Exchange Web Service .....	215
Creating the Application Workflow .....	221
Conclusion .....	225

## ■ CHAPTER 8    **Speech Application Analysis and Tuning** .....

Setting Up Your Log Files .....	227
Configuring Trace Log Options .....	227
Importing Log Files .....	228
Starting the Analytics and Tuning Studio .....	229
Generating Reports .....	230
Session Reports .....	231
Turn Reports .....	234
Using Analytics and Tuning Studio Tools .....	237
Grammar Tuning Advisor .....	238
Validation Re-recognition .....	240
Conclusion .....	242

## ■ CHAPTER 9    **Creating Speech Applications for Windows Vista** .....

Windows Vista Speech-Recognition Features .....	243
Improved Voices .....	245
Speech Toolbar .....	245
Forms of Speech Recognition .....	246

- Using the Speech Synthesis API ..... 248
  - Selecting Voices ..... 248
  - Specifying the Synthesizer Output Location ..... 249
  - Starting Speech..... 250
  - Building Prompts..... 250
- Using the Speech Recognition API ..... 251
  - Choosing a Recognizer..... 251
  - Creating Grammar ..... 252
  - Getting Recognizer Results ..... 256
  - Accessing the Speech Toolbar ..... 260
- Conclusion ..... 260

- INDEX ..... 261
